**Application for the position of Solution Architect (ref. 2026-42)**

Dear Ms Sample,

I read your job advertisement with great interest. As a **solution engineer** with more than three years of experience in building ERP solutions, I bring exactly the mix of technical depth and customer focus you are looking for.

In my current role I am responsible for:

- the architecture of scalable extensions for Microsoft Dynamics 365,
- workshops on CI/CD and agentic workflows,
- the end-to-end documentation of our products.

What attracts me most to your company is the combination of product development and consulting. I am available from 1 January 2027 and would be delighted to discuss my application with you in person.

Kind regards

Alex Example
